

LIST OF PRODUCTS

1	Weapons and ammunition	9	Personal security and protection
1. 1	Missiles and rockets	9. 1	Means for healthcare
1. 2	Guns, mortars and ammunition	9. 2	Means for providing foods
1. 3	Rocket launchers and grenades	9. 3	Clothing-Textiles
1. 4	Mines, obstacles and mines clearance devices	9. 4	Camp accommodation
1. 5	Fire control equipment	9. 5	Chemical, biological and radiological protection
1. 6	Small-bore weapons and ammunition, sports and hunting firearms	9. 6	Pyrotechnical equipment
1. 7	Signalling and illuminating devices	9. 7	Diving equipment
1. 8	Weapons and ammunition components	9.99	Personal security and protection – other
1. 9	Weapons and ammunition accessories		
1.99	Weapons and ammunition – other		
2	Main battle tanks, vehicles and means of transport	10	Radars and radio technical systems
2. 1	Main battle tanks	10. 1	Active radiolocation
2. 2	Armoured vehicles	10. 2	Passive radiolocation
2. 3	Special vehicles	10. 3	Radio-technical survey and warning devices and systems
2. 4	Engineering vehicles	10. 4	Survey, monitoring and warning navigational systems
2. 5	Road and terrain vehicles and motorcycles	10. 5	Radar centres
2. 6	Motor boats and hovercrafts	10. 6	Jamming devices and systems
2. 7	Subgroups and accessories of tanks and vehicles	10. 7	Deceptive devices
2. 8	Camouflage means	10. 8	Antenna systems
2.99	Main battle tanks and vehicles – other	10. 9	Radio-technical receivers and transmitters
		10.10	Navigational receivers and transmitters
		10.11	Components and parts of radars and radio-technical systems
		10.12	Meteorological support of location and navigation systems
		10.99	Radars and radio-technical systems – other
3	Aircraft	11	C4I2 systems
3. 1	Airplanes	11. 1	Data and information recording and processing
3. 2	Helicopters	11. 2	Communication network for data transmission
3. 3	UAV	11. 3	Communication means of control and navigation
3. 4	Board control equipment	11. 4	Radio relay devices for stationary and mobile telecommunication networks
3. 5	Electric equipment of aircraft	11. 5	Satellite communication
3. 6	Aircraft equipment and armament	11. 6	GPS means and systems
3. 7	Aircraft engines	11. 7	IT for systems of command and control
3. 8	Aircraft installation	11. 8	Map interactive systems
3. 9	Life saving means	11.99	C4I2 systems – other
3.10	Air traffic control		
3.99	Aircraft technology – other		
4	Command and communication systems	12	Information security and data protection
4. 1	Automatic systems of command and control	12. 1	Information security technological means
4. 2	Optical and electromagnetic transmitting systems	12. 2	Information security by coding
4. 3	Information gathering and detection equipment	12. 3	Means of monitoring security situation in computer networks
4. 4	Systems for reconnaissance of inaccessible areas	12. 4	Information security technological means – other
4. 5	Topographic devices and services	12. 5	Physical means of information's protection, EMC, PEV means, over voltage protection
4. 6	Generating sets and power supply systems, batteries and accumulators	12. 6	Legal and organisational aspects of information security and protection
4.99	Command and communication systems – other	12.99	Information security systems – other
5	Security technology services	13	Logistics and service
5. 1	Mechanical means of security	13. 1	HW and SW for logistics
5. 2	Electronic means of security	13. 2	Repair and service centres
5. 3	Means of mobile security	13. 3	Workshops, tools, technical equipment
5. 4	Security technology and services	13. 4	Metrological centres, measuring instruments
5. 5	Highway police technical means	13. 5	Elements and components of electronic devices
5. 6	Criminological and expert technology	13.99	Logistics and service – other
5.99	Security means – other		
6	Observation and marking equipment	14	Miscellaneous
6. 1	Night-vision equipment	14. 1	Specialised books, publications and publishers
6. 2	Optic aiming systems and target marking	14. 2	Trade and intermediary activity
6. 3	Hidden observation equipment	14. 3	State and economic institutions
6. 4	State border defence equipment	14. 4	Associations and unions
6. 5	Security building entrances	14. 5	Office technology
6.99	Observation and marking equipment – other	14.99	Other
7	Maintenance and repairs of technology, material supplies	15	Components, sub-supplies, industrial cooperation
7. 1	Means and technology for repairs	15. 1	Components
7. 2	Maintenance and diagnostics means	15. 2	Sub-supplies
7. 3	Handling, supplying, packing means	15. 3	Industrial cooperation
7. 4	Storage means		
7.99	Maintenance and repairs technology – other		
8	Military and police professional training		
8. 1	System of education		
8. 2	Equipment supporting education and training		
8. 3	Simulator devices and evaluation systems		
8. 4	Training devices		
8. 5	Gunnery, driving and tactical simulators		
8. 6	Crisis management operation		
8. 7	Training simulators		
8. 8	Equipment of anti-terrorist groups		
8.99	Means for military and police professional training – other
